We're thrilled B Online Learning are certified Articulate trainers. We've admired the work they've done incorporating Articulate software into their Master eLearning Course and know that Articulate Australia customers will benefit from their Articulate expertise.

Mark Schwartz Executive VP, Articulate

Articulate® Certified Training.

....

As the Exclusive Articulate® Certified Training Partner in Australia and New Zealand, we offer:

- open enrolment workshops at many Australian capital cities;
- onsite workshops; or
- custom live webinars.

Why choose B Online Learning?

As commercial Articulate developers for government and enterprise, B Online Learning has many years of practical experience in developing thousands of hours of Articulate courses. Our training sessions not only provide the Articulate Certified Training Program, but also offer practical advice specific to your eLearning requirements and post workshop support.

Why choose a Certified Articulate® Training Partner?

To ensure you're gaining the most out of your chosen software it's important to receive training that is endorsed by the software creator and delivered by a trainer who understands a tool's true potential, entire functionality and most efficient utilisation. B Online Learning is the only organisation in Australia and New Zealand that has been selected to deliver the Certified Articulate® Training Program.

Create interactive courses with Articulate® Storyline

Use Articulate® Storyline if you want to create interactive eLearning. Articulate® Storyline is ideal for people who want to create any type of interactivity imaginable. Storyline includes slide layers, triggers and states – the features that let you create amazing interactions without programming. Designed for simplicity and power, it's the only eLearning authoring software that grows with you.

Learn which tools to use when with Articulate® Rise 360+

You'll learn and build complete modules using Rise, as well as supplement these modules with additional content using the Articulate® 360 tools – Peek, Replay and Review. You'll learn which tool to use when, and walk away with a deeper understanding of the award winning Articulate® suite of tools.

Certified Trainer

Articulate® Rise 360+

....

- online delivery via a series of live 2 x 2.5 hour interactive webinars; or
- one-day workshop.

Course synopsis

Articulate® Rise 360+ Training is delivered via two x 2 hour live webinars or 1-day in-class instruction and is dedicated to the Articulate® 360 applications. You'll learn and build complete modules using Rise, as well as supplement these modules with additional content using the Articulate® 360 tools – Peek, Preso and Replay. You'll learn which tool to use when, and walk away with a deeper understanding of the award winning Articulate® suite of tools.

Who should attend

Professionals who are new to Articulate® 360 software or those looking to gain a complete understanding and make full use of all of the tools available within the Articulate® 360 Suite.

Prerequisites

Training sessions are designed for a variety of skill levels. All participants should have basic computer skills and familiarity with some of the more common user interfaces (such as ribbon technology and browser windows)

“

Everyone was completely blown away by Articulate and our facilitator was brilliant at explaining the content and answering any questions. I am so excited to start using the product. My brain is a buzz with ideas... got to put them into action now.

Caroline KING & WOOD MALLESONS

Articulate® Storyline

....

Learn to create polished interactive courses with Articulate® Storyline:

- two-day Basic Storyline Training Workshop; or
- one-day Advanced Storyline Training Workshop; or
- three-day Expert Storyline Workshop, which incorporates both workshops; or
- also available online through Zoom with a series of live interactive webinars.

Basic workshop

Course synopsis

Held at a training site in a city near you, this two-day training course provides you with everything you need to create compelling eLearning with Articulate® Storyline. You are guided through the development of a rapid eLearning course via a highly interactive workshop, allowing you to experience the simplicity, flexibility and power of Storyline.

Who should attend

Professionals using Articulate® Storyline for eLearning content development, including training managers, instructional designers, trainers, product managers, and marketing and communication professionals.

Prerequisites

You should have a moderate comfort level with Windows applications. (Articulate® Storyline is a Windows-based application that does not require PowerPoint. It also runs within most popular Windows virtual machines on an Apple MacBook).

“

The mix of demonstrations and activities was perfect. It was all relevant and very useful. Thanks, it was a valuable two days!

Stephanie AGL

Articulate® Storyline

•••

Basic Workshop | Day One

“

Thanks for the informative, engaging and entertaining Articulate Storyline workshop. Ben is a great facilitator.

Paul Electrolux

Advanced Workshop

Course synopsis

In the Advanced training, we'll explore even more options to help take your courses to the next level. We teach a practical approach for using Conditional Triggers and Variables to help design complex learning modules. You'll get to experiment with creative interactions using dials and sliders, and explore the use of motion and shape intersection triggers, that make motion paths the perfect tool for unique presentations and gaming.

Who should attend

Professionals using Articulate® Storyline for eLearning content development, including training managers, instructional designers, trainers, product managers, and marketing and communication professionals. This course is ideal for people that have upgraded to Storyline 3 or Storyline 360 from a previous Storyline version as it explores the powerful new features available.

Prerequisites

You should have completed the Articulate® two-day Basic Storyline open enrolment training or have an equivalent skill level.

The following topics are covered.

Using Motion Paths

- **Triggering Motion**
- **Relative Starting Point**
- **Creative Paths**
 - Gaming, Auto Scrolling Panels, Floating Bullets, etc.

Using Variable and Conditions

- **Using Text Variables to create custom content**
- **Using Conditions to control navigation**
- **Performing Calculations with Number Variables**
- **Adjusting Number Variables with Sliders and Dials**
- **Creating Custom LEarning Paths wth True/False Variables**
- **Troubleshooting Variables**
- **Use-Case Experiments**
 - Students are presented with a use-case and challenge, and asked to build a solution.

Note: Our advanced day's outline is intentionally designed with the space and time needed to practice with the many facets of Storyline.

The creativity and professionalism of the work your Trainers produce is very inspiring. The presentation style of the 3 courses I have now done has always been engaging, well paced and enlightening. **Julie** Nelson Marlborough Health

Master Workshop

Course synopsis

This B Online Learning workshop is for people that want to gain a deeper knowledge of Articulate Storyline and its capability. We take the building blocks of Storyline to the next level. Get practice files to take away with you to create your own high level content.

Who should attend

Professionals using Articulate Storyline for eLearning content development, including training managers, instructional designers, trainers, product managers, and marketing and communication professionals.

Prerequisites

You should have completed the Articulate Basic and Advanced Storyline training or have at least 12 months experience using Articulate Storyline.

The following topics are covered.

Topics

- Add gamification with states, button sets, random number variables, conditions and lightboxes
- Create a learning journal pdf document for learners to print or save
- Use ‘video-like’ effects using states, animations and cue points
- Build complex interactive activities
- Drag and drop post it notes to create a planner
- Adding a scale to score questions
- Building a course menu with restrictions
- Create a branching scenario with animated characters

Fantastic Course, well delivered,
progressive & well timed.

Marshall COFFEY
